Thanks for filling out [Report issue - Group 1](#)

Here's what was received.

Report issue - Group 1

Please fill out this form to report an issue/vulnerability in the group 1.

Your email (utkarsh20143@iiitd.ac.in) was recorded when you submitted this form.

Vulnerability type

*

Select the type of vulnerability, or specify a custom one.

☐ XSS

☐ CSRF

☐ Feature bug

☒ Other: DOS

Steps to reproduce

*

Describe the steps to reproduce the vulnerability.

Open the website

Go to the sign up page

Try to upload a really huge file

It can be uploaded

Apache has no protection against really large files being uploaded, nor have the developers

implemented it themselves. Since the VMs provided have a memory of 20 GB, if the memory is filled up, the site will stop working

Proof of concept

*

Provide a proof of concept for the vulnerability.

If we sign up 20 times, each time uploading a 1 GB file, we will overload the memory of the server, and thus the site will not work properly.

Impact

*

Describe the impact of the vulnerability. How bad is it?

Medium; a dedicated attacker with a sufficient bandwidth can bring down the system easily

Screenshots/attachments

Provide screenshots or other attachments to help explain the vulnerability.
